

Whatever your rapid Covid-19 test result, let us know right away

It's important to test regularly.
But so is telling us all your results –
negative and void as well as positive.

Why do I need to do this?

Recording all test results helps scientists spot new virus outbreaks and advise how to respond. If people only report a positive result, case levels look higher than they really are. So if yours is negative or void, you'll make sure our information stays accurate. You could even help stop another lockdown.

Reporting your results is easy

Go to: [gov.uk/report-covid19-result](https://www.gov.uk/report-covid19-result)

Or call: **119 free from your mobile or landline. Lines are open every day, 7am to 11pm.** We offer support in 200 languages as well as British Sign Language.

Remember: you've only completed your test when you've told us the result.
